                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 1890<br>1891<br>1891<br>YEAR.<br>1851<br>1852<br>1853<br>1854<br>1853<br>1854<br>1855<br>1856<br>1857<br>1858<br>1860<br>1861<br>1862<br>1863<br>1864<br>1862<br>1863<br>1864<br>1865<br>1868<br>1869<br>1870<br>1871<br>1872<br>1873<br>1874<br>1875<br>1876<br>1877<br>1878<br>1879<br>1880<br>1881<br>1882<br>1883<br>1884<br>1885<br>1886<br>1887<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888<br>1888                                                                                                                                                                         |

The figures of Revenue and Expenditure are for the twelve months ended 31st December of each year until 1871, when the financial year was changed so as to terminate on the 30th June. The figures for subsequent years are for the twelve months ending 30th June, and the figures for subsequent years are for the twelve months ending 30th June. The amounts since 1874 are now, for the first time, exclusive of recoups and expenditure to be recouped.

In addition to the quantity of land sold and amount realized within the year, the figures under the head "Crown Land Sales" represent, during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments were the head "Crown Land Sales" represent, during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of year. The extent selected, of which the purchase had not been completed, is not included in the area sold. This amounted, at the end of 1891, to 6,140,596 acres.

Lands granted without purchase, which amounted up to the end of 1891 to 15,496 acres. Cale without purchase, which amounted up to the end of 1891 to 15,496 acres. Acres also excluded.

Since the year 1864, a considerable quantity of wood has each year been imported in to Victoria and turray, from the Riverina district of New South Wales, for transport by railway to Melbourne and shipment thence. Prior to 1872 no precise record of the quantity so introduced was kept at the Customs. It has, however, been ascertained that at least 18,000,000 lbs. of wood, valued at £972,000, crossed the Murray into Victoria in the year 1870, and the following amounts in the year 1870, and the following amounts in the year 1870, and the following amounts in the year 1872, 3,5472,000, in 1872, 13,555,00, in 1875, 13,5472,000, in 1872, 13,555,00, i

Prior to 1871 the expenditure was for the year ending 31st December. The figures for 1871 relate to the first six months only. Since that date they have been for the year ended 30th June—except as regards the Railway expenditure in 1876, which is for the eighteen months ended 31st December, and in the years 1877 to 1884, which are for the twelve months ended 31st December; and except as regards Country Waterworks expenditure, which for all the years prior to 1885 is for the years ended 31st December. The figures do not in any case include amounts expended by municipal governments.

**These returns are those of the Government and private railways combined, the latter of which were purchased by the State in July, 1878. The returns of the former are, prior to 1871, for the year ended 31st December; in 1871 for the six months ended 30th June; in the years 1872-5 for the twelve months ended 30th June; in 1876 for the eighteen months ended 31st December; in the years 1877-84 for the twelve months ended 31st December; and subsequently for the twelve months ended 30th June. The returns of private railways are for the year ended 31st December; und subsequently for the twelve months ended 30th June.

**Post Office Savings Banks were first opened in 1865. Hence the increase in the number of banks from that year. The returns for the Post Office Savings Banks are for the years ended 31st December, those for the ordinary Savings Banks are for the years ended 30th June.

**Until 1879 the figures did not give particulars of all the Friendly Societies in the colony, but only of such as furnished returns.

**Including purchase-money of the late Melbourne and Hobson's Bay Railway Company's lines.

**HENRY HEYLYN HAYTER, Government Statist of Victoria, Hence the increase in the number of telegrams, in 1870 and 1885, was consequent on a reduction in the rates.

### SUMMARY OF THE AGRICULTURAL STATISTICS OF VICTORIA FROM 1836 TO 1891-92 INCLUSIVE.
